 Judy Beers Date

Dear Sir:

Patent owner respectfully requests that the Patent and Trademark Office issue a Certificate of Correction of Patent No. 6,147,014 to correct the related US Application Data in the title page and at column 1 of the patent. A request for a Certificate of Correction was filed previously on February 15, 2001. However, an error in patent No. 6,147,014 which misidentified the application on which Patent No. 5,872,387 issued, as Application No. 08/856,411 was not detected at that time.

The correct application number is 08/586,411 as stated in the Declaration which accompanied application 09/020,565. A corrected request for a Certificate of Correction under 38 CFR 1.322. PTO/SB/44 is enclosed and it is requested that the request mailed on February 15, 2001 be disregarded.

From a review of the patentee's file of prosecution of Application 09/020,565 on which this patent incurred, the origination of these errors is uncertain. However, because no indication has been found that the errors were introduced by Applicant, it is presumed the mistakes were made on the part of the Patent and Trademark Office.

If, however it is determined the errors are not the fault of the USPTO, it is respectfully requested this request be treated as a request for correction of an error by Applicant under 37 CFR 1.323. In that case, the applicable fee may be charged to Deposit Account No. 500315.

If the Office should have any questions regarding this issue, please contact Patent Owner's attorney at the below-listed telephone number.
